Module 1

Juan Esteban García Arboleda

Ficha: 3145939

Questionnaire: 1. What does "qualifications" mean?

2. Which of these options is NOT included in a resume?

c) Favorite movies

3. What is the difference between "skills" and "experience"?

Answer: Skills are what I know how to do.
Experience is how I do it, how I perform at what I do, and for how long I have done it.

4. What does "applying for a job" mean?

Answer: It means to go in search of a job, a paid service; it means to tell companies, "I am asking to be hired."

5. What is the main objective of a cover letter?

Answer: To demonstrate why they should hire me; it can also be a way to "sell my skills."

Professional Summary

"Graduate in software analysis and development, with a strong attention to detail and experience in several MERN application projects. Expert in Python, data analysis, and teamwork. I seek to leverage my technical expertise to drive innovation in a cutting-edge company."

Work Experience

Packer, Merkahorro

Girardota, Colombia

| December 18 – February 10

I developed and maintained web applications using React and Node.js, improving user interaction by 70%.

I created two projects, one called Campobit and another for a company called Lacteos Prolinco. Both demonstrate my proficiency with technologies such as MongoDB Atlas, React, Express, Node.js, Tailwin CSS, and API consumption.

I participated in data collection and analysis for research reports on suicides in Antioquia.

I automated routine tasks using AI tools, learning about prompt engineering and improving my AI skills by 85%.

Education
